

Quest for Quality

We all agree that young children deserve the best early care and education, but how can you assure your community that your program is the best?

Quality New York presents **Quest for Quality**, a three-part sequence of workshops, to help you develop a system for assessing and addressing quality issues. Quality New York will help you use standards, assessments, classroom observation, portfolios, administration, and leadership to implement supports for continuous quality improvement.

Target Audience: Program Administrators

**Fee: \$125.00 registration fee/person* for either Sequence A or B,
*includes books, materials and refreshments**
